

Bringing Tennis to the Valley

Fundraising for the new Community Tennis Complex has had a wonderful start. With only \$35,000 in support from the community, it will become a reality. The complex will include four courts located adjacent to Snowcrest Jr. High.

The Weber School District Foundation is leading the coalition to make it happen. RAMP has provided a \$100,000 grant, and another \$50,000 grant is expected from the United States Tennis Association (USTA). The Weber School District has donated the land and on-going maintenance after the complex is completed. Van Zeben Architecture has donated all the planning documents and construction drawings. Others are committing significant in-kind donations. Now it's up to the rest of us in the community to dig in and provide the remaining money.

Donors will be recognized; for a contribution of \$100, a substantial brick engraved with the donor's name, or the name of another you'd like recognized, will be placed on monuments located adjacent to the entry plaza. Larger pieces will recognize those who make more substantial contributions.

The fundraising campaign begins April 22 and is expected to end May 31 so construction can begin, and the courts opened at the beginning of the new school year in the fall. In lieu of a grant, the Community Foundation of Ogden Valley is leading this part of the fundraising effort.

Tax deductible donations may be made using the official donor form obtained from multiple Valley businesses or found on the Community Foundation of Ogden Valley (CFOV) web site <www.cfogdenvalley.org> The donor form may then be mailed to the following address:

If you prefer, a board member can also visit your home and pick up your contribution.

This is a very exciting time for those who have enjoyed the sport of tennis at some time in their life and for those who will come to love it in the future. Work is underway with USTA to ensure the complex will support Quick Start tennis for youth under the age of ten. The proposed courts are also sanctioned for USTA tournaments.

The four planned courts will provide enough capacity to support Snowcrest Jr. High's Physical Education program, and Valley Elementary leaders are preparing to incorporate the Quick Start training program. Ogden Valley Recreation and the newly formed USTA Chapter in Ogden Valley will provide instruction and other programming for the community. In addition, generous amounts of open-court time are planned for general public use.

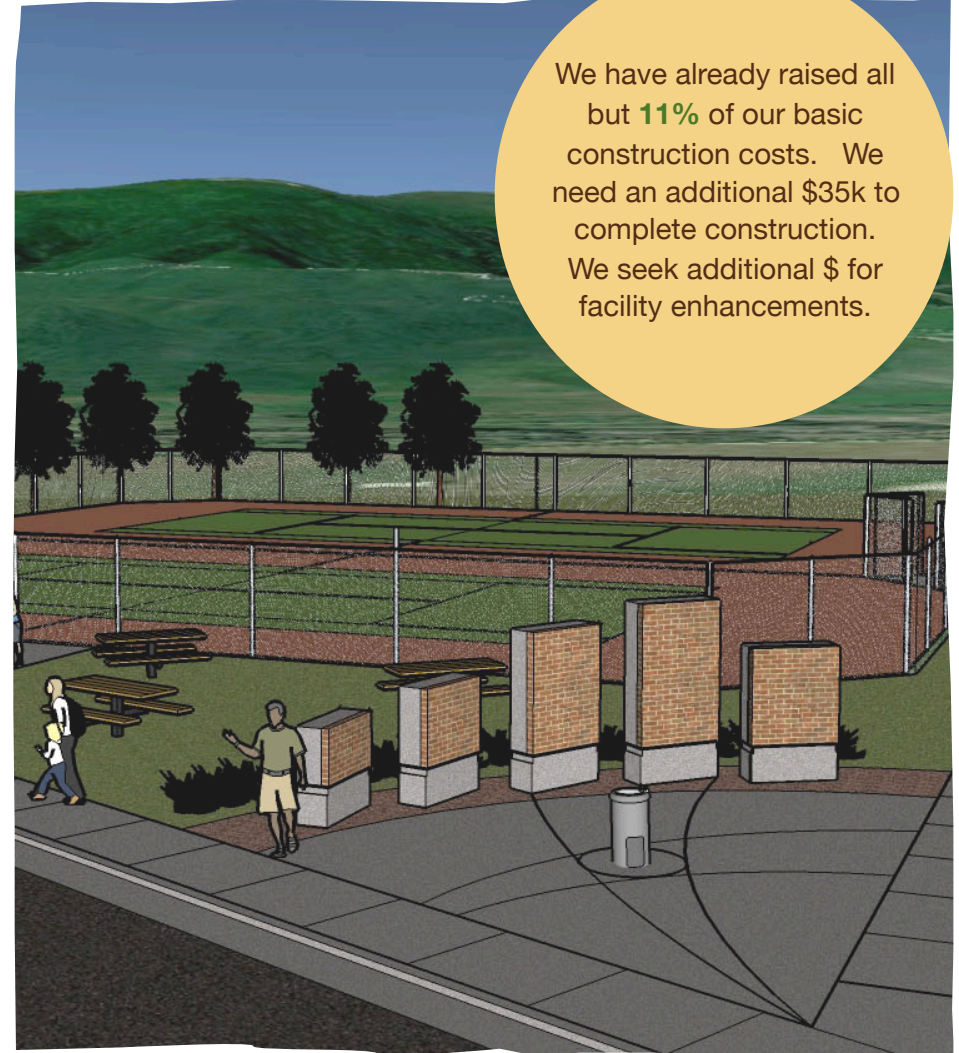

For more information about this exciting endeavor, contact Fundraising Committee chairman Ross Mertlich of the CFOV at 801-745 3731.
